

ZURICH | NOVEMBER 14-15, 2019

EXPONENTIAL Finance

A SingularityU Summit

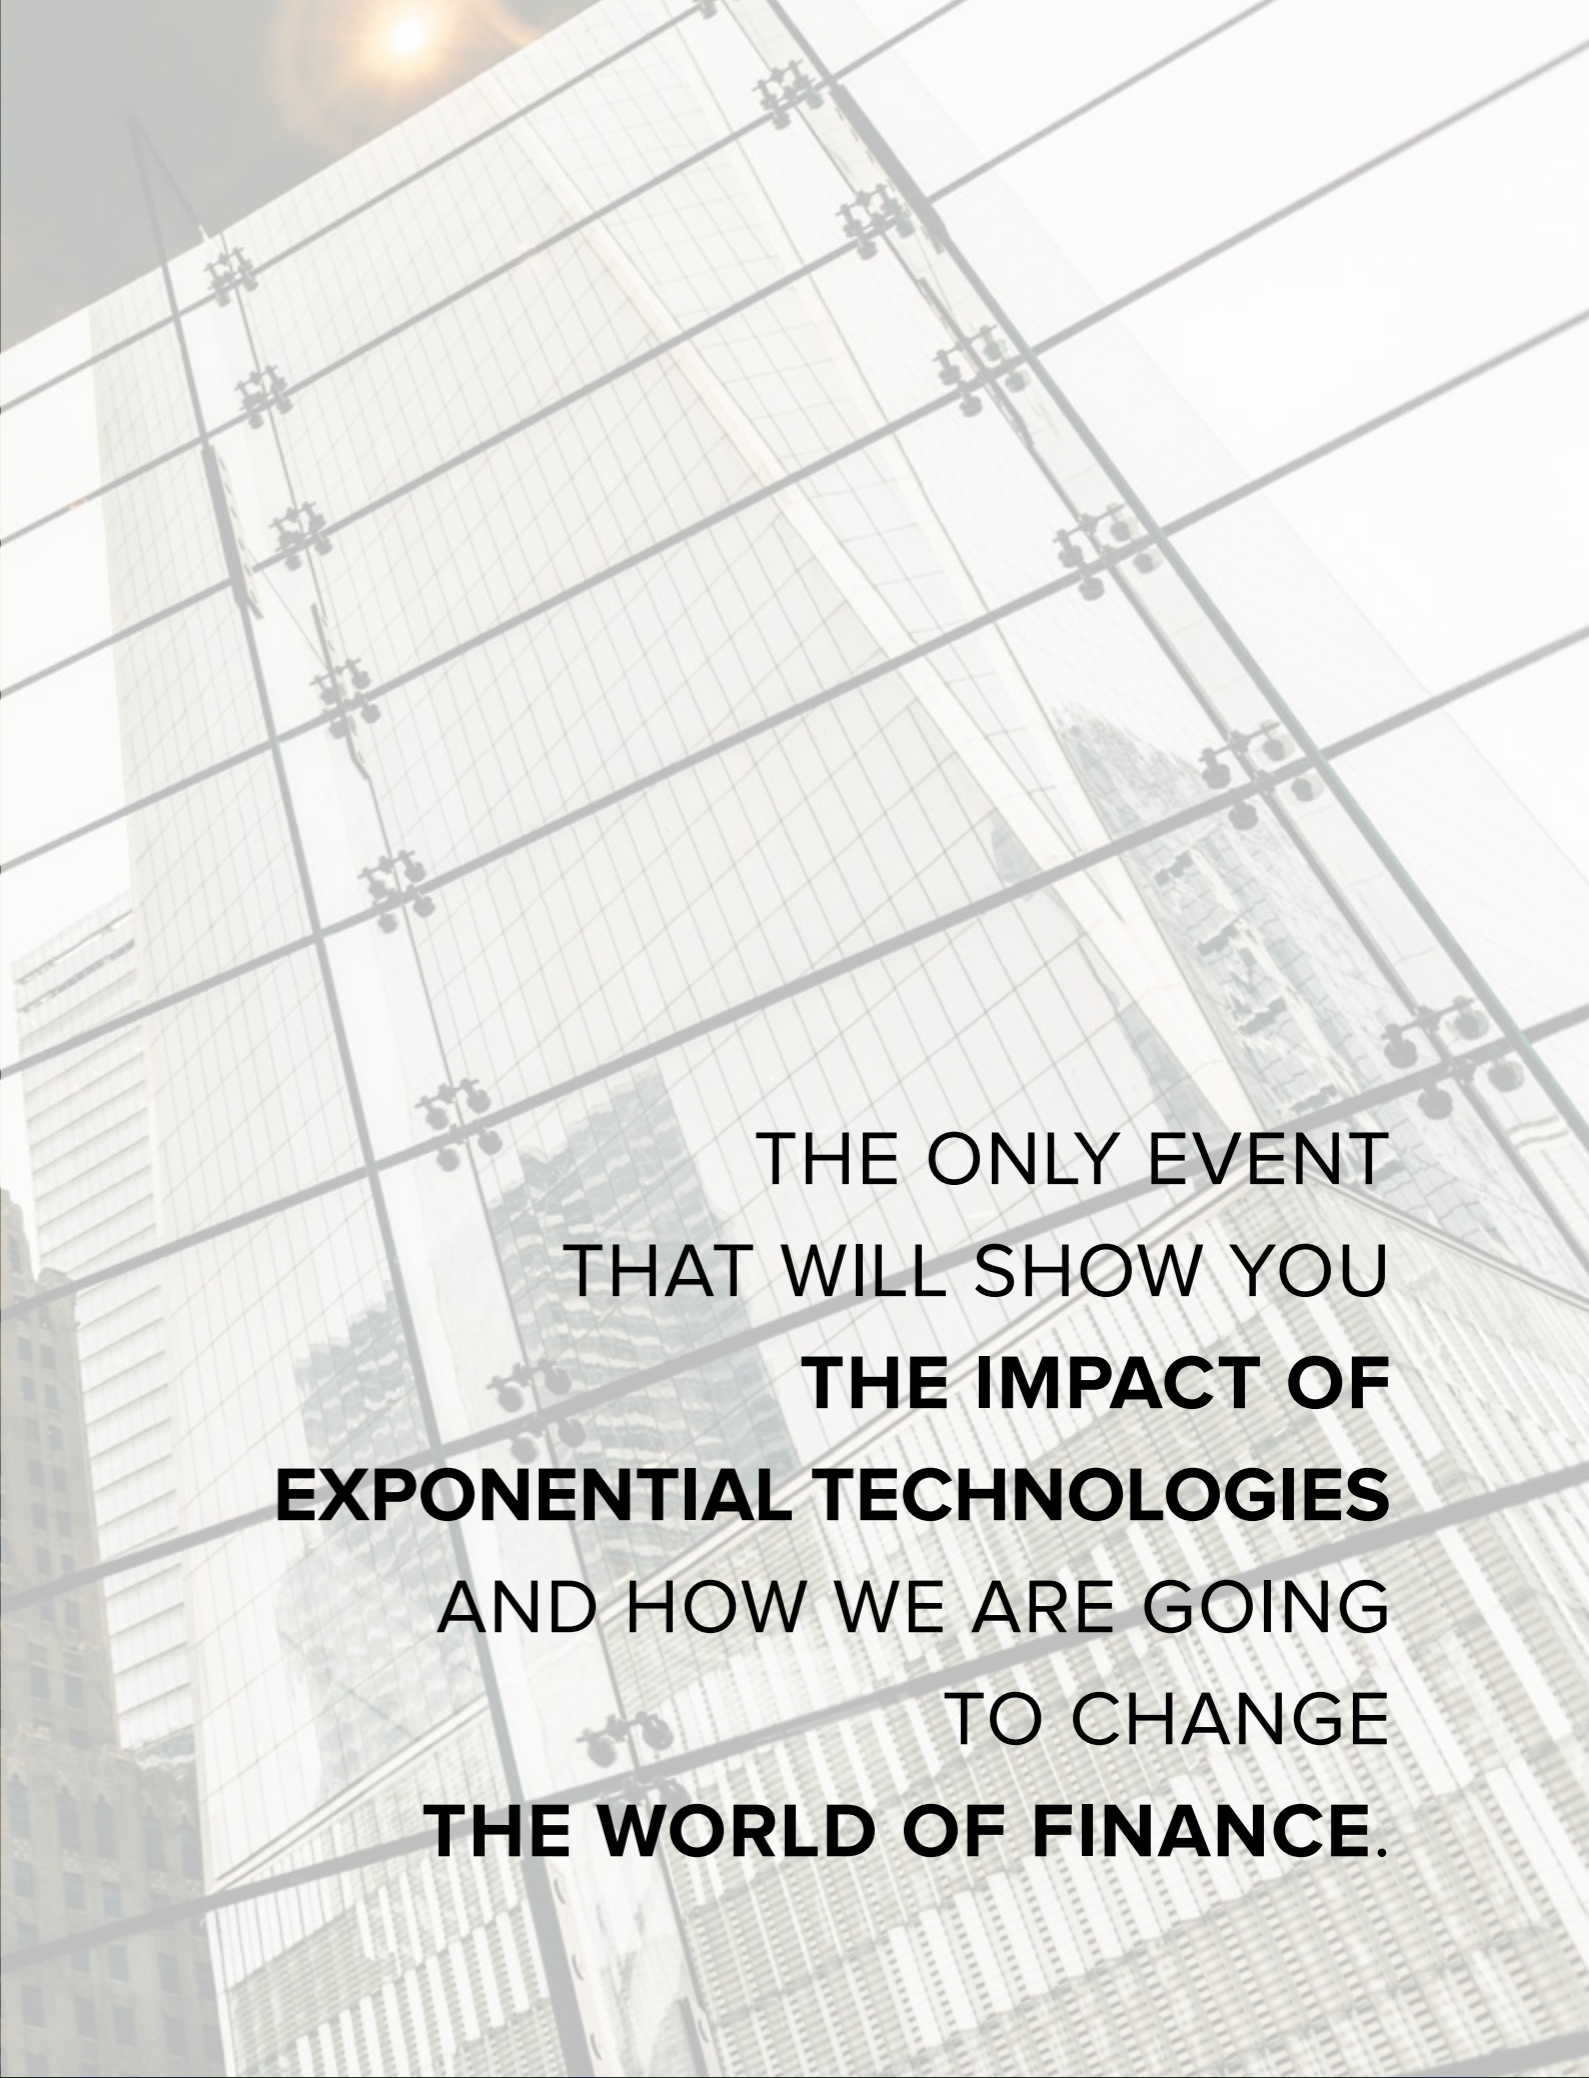

The future of Finance, today

Powered by

Talent
Garden

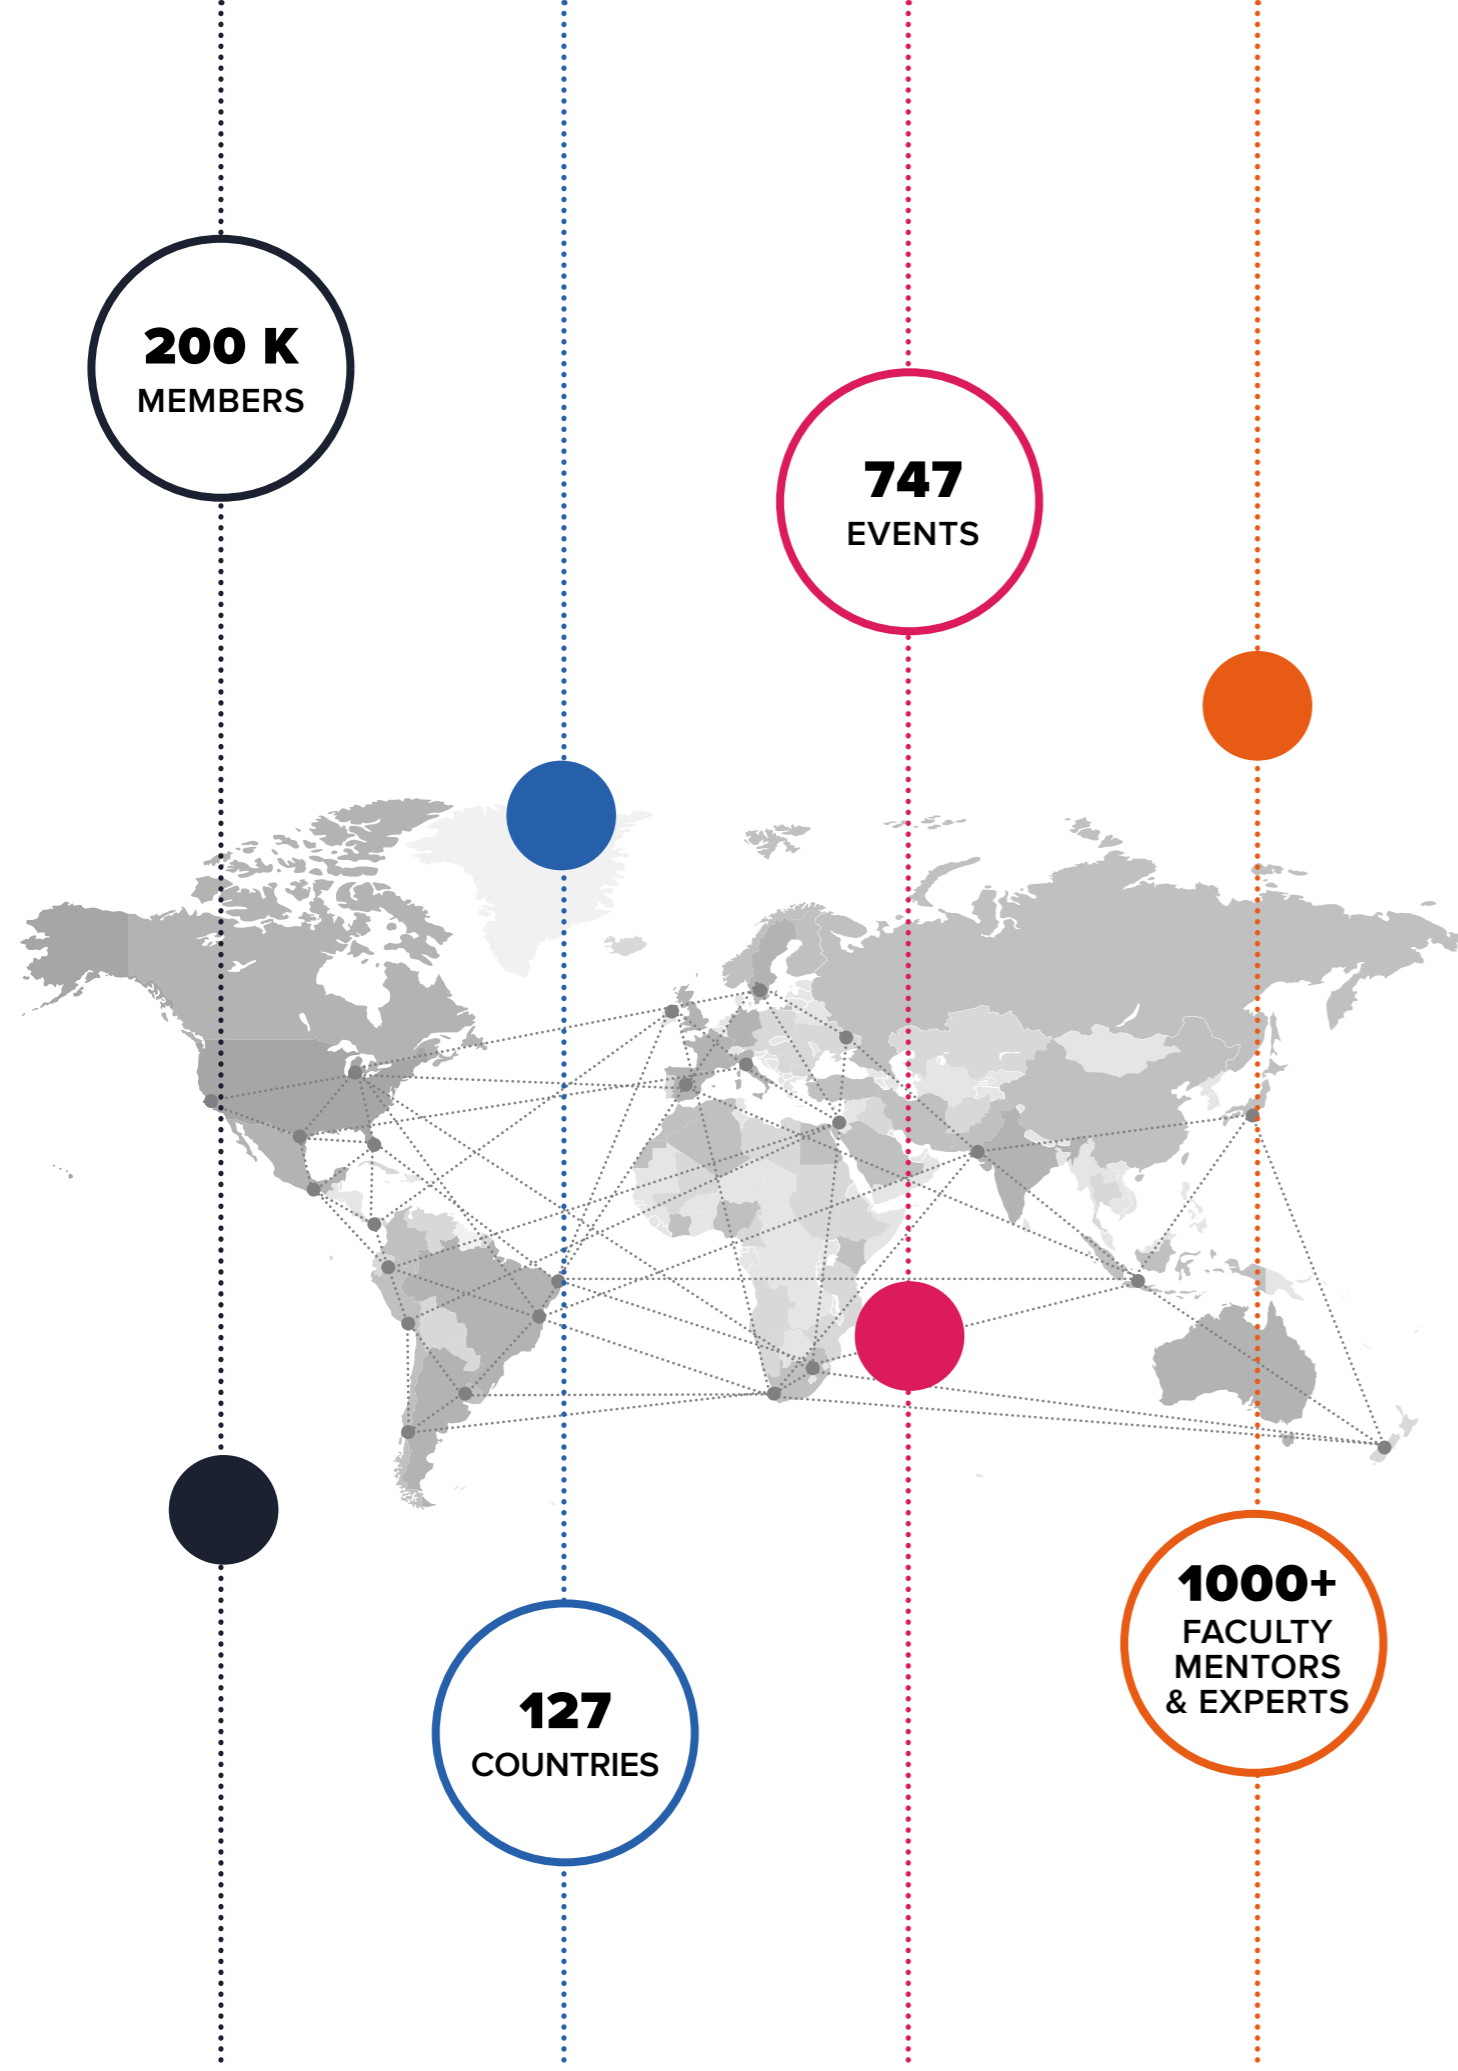

THE ONLY EVENT
THAT WILL SHOW YOU
**THE IMPACT OF
EXPONENTIAL TECHNOLOGIES**
AND HOW WE ARE GOING
TO CHANGE
THE WORLD OF FINANCE.

ABOUT SINGULARITY UNIVERSITY

Singularity University (SU) is a global learning and innovation community using exponential technologies to tackle the world's biggest challenges and build an abundant future for all. SU's collaborative platform empowers individuals and organizations across the globe to learn, connect, and innovate breakthrough solutions using accelerating technologies like artificial intelligence, robotics, and digital biology. A certified benefit corporation headquartered at NASA Research Park in Silicon Valley, SU was founded in 2008 by renowned innovators Ray Kurzweil and Peter H. Diamandis with program funding from leading organizations including Google, Deloitte, and UNICEF.

ABOUT SINGULARITYU INTERNATIONAL SUMMITS

SingularityU International Summits are hosted by SU partners across the globe to help local leaders understand how to apply exponential technologies to create positive change and economic growth in their regions.

SingularityU Summits are two-day conferences that become **an annual point of connection and inspiration**, a catalyst to accelerate a **local culture of innovation**, a platform for people to work on impact initiatives, and an opportunity to **convene members of the community** for discussion around rapidly changing technologies.

The future of **Finance**, today

LEARN. NETWORK. COLLABORATE

on the future of payments,
banking, asset management
and venture capital

From Silicon Valley to Zurich

2

DAYS

+20

SPEAKERS

500

ATTENDEES

JOIN US in Zurich, one of the world's largest financial centres: a two-day experience during which 500 Executives from all over Europe gather to discuss, connect and network with fellow leaders.

You will experience a wide range of subjects, presented by some of the world's foremost innovators, entrepreneurs, and leaders in the world of exponential technologies, asset and risk management, funding, and financial services.

From Blockchain to Genomics, from AI to Energy, after an introduction into the future of Corporate Innovation, the first day of the Summit covers the exponential technologies and emerging strategies that are fundamentally shifting the entire financial playing field.

AGENDA

DAY 1 NOVEMBER 14

9:00 INTRODUCTION

Opening Talk
Corporate innovation

INVESTING IN INNOVATION PT. I

Making Exponentials Investable
AI
Robotics

LUNCH

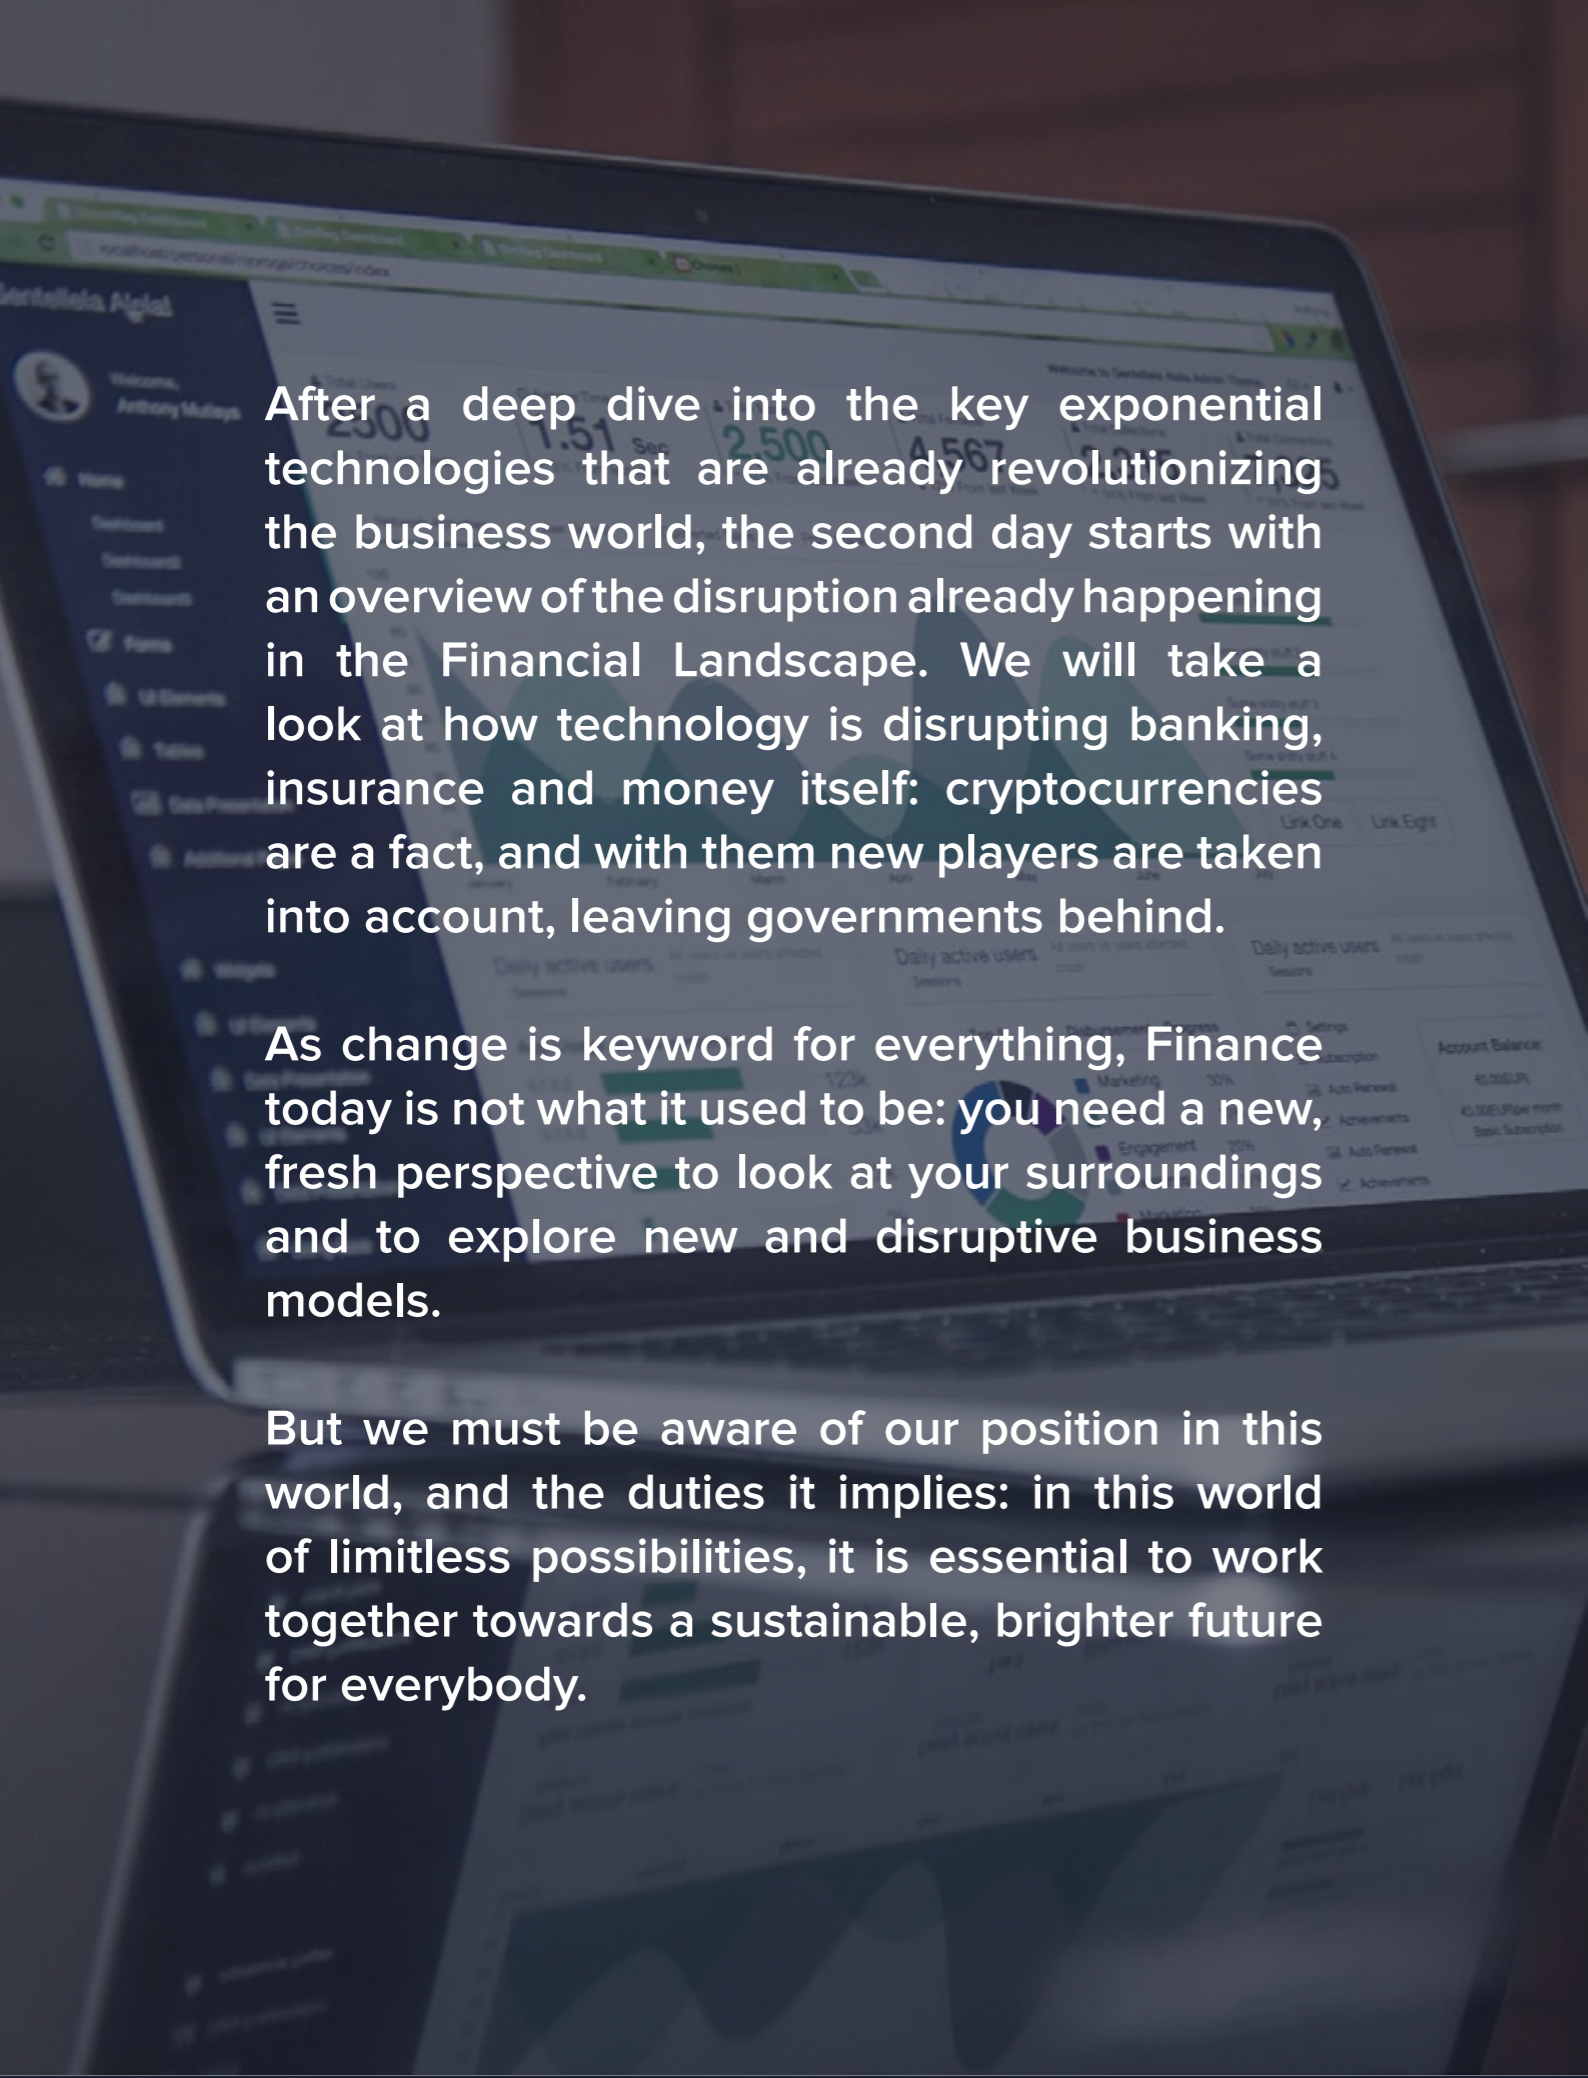

INVESTING IN INNOVATION PT. II

Blockchain
Energy
Genomics

FUTURE OF WORK

18:30

NETWORKING COCKTAIL

After a deep dive into the key exponential technologies that are already revolutionizing the business world, the second day starts with an overview of the disruption already happening in the Financial Landscape. We will take a look at how technology is disrupting banking, insurance and money itself: cryptocurrencies are a fact, and with them new players are taken into account, leaving governments behind.

As change is keyword for everything, Finance today is not what it used to be: you need a new, fresh perspective to look at your surroundings and to explore new and disruptive business models.

But we must be aware of our position in this world, and the duties it implies: in this world of limitless possibilities, it is essential to work together towards a sustainable, brighter future for everybody.

AGENDA

DAY 2 NOVEMBER 15

9:00

THE FINANCIAL LANDSCAPE
IS NOT WHAT IT USED TO BE

- Big Data & AI in Finance & Insurance
- Cryptocurrency
- Blockchain in Banking
- Cyber Security
- E-Government & Digital Identity
